Objective

Statutory objective of the organisation. What does the organisation seek to achieve?

The preservation, protection and improvement of the environment for the benefit of the public interest, in particular in the areas of biodiversity, sustainable land use, the promotion of sustainable development and the prudent use of resources. We achieve this goal through awareness-raising work with the public, independent research in collaboration with others, and by carrying out projects to tackle environmental and poverty problems.

Outline of the policy plan

Please answer the questions below or provide an URL to the policy plan after the last question about the policy plan.
The online policy plan should at least provide answers to the questions about the policy plan asked here.

What are the institution's activities? When are which activities to be carried out? And how do the activities contribute to achieving the institution's objective?

Our strategy is to finance and support research, campaigns and transformative practices to replace destructive, unhealthy diets promoted by globalised food systems with resilient, equitable and regional food economies providing delicious, nutritious, widely accessible foods that reduce climate change, make space for nature and lessen the risk of future pandemics. We implement this strategy working with allies and movements of food citizens to transform the food system in Europe and beyond. We have three strategic objectives for our EU work in the coming 4 years (by 2025): 1. Less land and fewer ocean environments are used globally for protein production and for the delivery of essential micronutrients for the EU. Consumption of meat, dairy and carnivorous farmed fish has been reduced in the EU. 2. Circular, nutrition-sensitive food production is replacing linear food production in the EU, resulting in a reduction of global food waste in the food system among other benefits. 3. Examples of inclusive, sustainable regional economies, based upon the initiatives of local community groups and entrepreneurs have proven viability and are being supported and/or adopted by several (local) authorities, institutions and companies.

How does the organisation generate income or revenue?

In 2025 we received funding from the European Climate Foundation (ECF) and Healthy Food Healthy Planet. Other funding was provided as sub-grant agreements with Foodrise UK in relation to joint projects funded by the OAK Foundation, Oceans 5, Patagonia and anonymous foundations.

Spending policy: The Foundation will spend the income received in accordance with the objectives as stated in the Articles of Association. Access to Foundation assets In line with the provisions set out in the Articles of Association, no single legal person has a decisive say within the Foundation; similarly no single legal person has the ability to access and manage the Foundation's assets as if they were their own personal assets.

General (continued)

How and for what purposes are the revenues spent?
If your organisation holds capital, please fill in here where and how this capital is held (e.g. savings account, investments, etc.)

The Foundation is a non-profit making organisation, as stated in Article 2 of the Articles of Association. The Foundation's income will be used solely to achieve its charitable objectives. As stated in Article 12 of the Articles of Association, any liquidation proceeds will be spent for the benefit of one or more charities with ANBI status (in the Netherlands) with a similar objective or a foreign institution with a general interest of a similar objective. The organisation recruits funds for the purpose of achieving the Foundation's objectives through the following fundraising activities: contracts, grants, legacies, donations. All acquired funds are solely for the benefit of the Foundation and annual accounts are prepared and filed in accordance with the Articles of Association. The Foundation does not hold more capital than is reasonably necessary for the continuity of the anticipated projects and realisation of its objectives.

Remuneration policy

Remuneration policy for the statutory board, for the members of the policy-making body and for staff (e.g. collective labour agreement or salary scheme).

The Board is in charge of the remuneration policy in line with the Wijffels Committee's "Governance Code for Charities". The members of the Board receive no financial reward for their work but may claim reasonable expenses incurred while carrying out their duties as part of the Board.
